Way to get off the HiDNF list !

1. You can send in all your results files, (assumes you do not have HiDNF% there too).

2. You can mail a request for immediate removal to obs-list and then you must satisfy:

- The following 7 race with an average below 20% DNF.
- Be less than 30% DNF in 10 subsequent race.

If you can't perform the obs-list requirement you will be back on Hi DNF-list and can only be moved by better DNF behavior...
