HiDNF List-average: **81,22 % DNF**. All data in parenthesis (*) - showing the "overalltime". Fleet Rank is average "overalltime" on the "place in race" where a race winner gets 100%. If Fleet Rank is high the DNF probably is temporary, so handle the information with care and good conclusions.

HiDNF-list is presenting **140,00** logins = **0,60 %** of all, who can call themselves quitters on date: **2010-09-13 at time: 21.41.44 = GMT +1**
The list show DNF based on all **Fleet Race** since the date: **2009-09-30**
It is based on: **23 474** login, **34 208** race and **750 742** results.

Three ways to get off the list!

1. You can send in all your results files, (assumes you do not have HiDNF% there too) -zip the folder /MyDokument/vsk5/results.
 2. You can mail a request for immediate removal - assuming to some conditions
 3. You can immedety change your behavior, and then send in all race from at least last 12 month --zip the folder /MyDokument/vsk5/results.
- Not without any reason!** If you are on the list it's your own fault. To many DNF is a bad behavior, so "stay and play" instead and do your pen cancel instead of quitting. On the World Rank DNF is calculated as starting boats+1, so you loose more on DNF then finish as last boat.
